Guidance for farmers

on handling, segregation, packaging and transporting

By noting the guidance and information given below farmers will greatly assist in the efficient and safe operation of the farm hazardous waste collection centres each day.

Collection centres will only operate between the hours of 9.30 am to 3.30pm

 <p>1. Each waste type must be clearly identifiable.</p>	 <p>2. Mixed waste and unidentifiable wastes will NOT BE ACCEPTED.</p>	 <p>3. Waste engine and hydraulic oils should not be mixed with any other substances.</p>	 <p>4. All needles and syringes to be delivered to the centres in a separate sealed container.</p>	
<p>5. Farmers should segregate and package their wastes to avoid leaks during transport. Farmers should load their wastes so that they can be off-loaded at the 4 main operational areas at each centre.</p>	 <p>Waste oil acceptance area</p>	 <p>WEEE & battery acceptance area</p>	 <p>Hazardous waste acceptance area</p>	 <p>Empty containers</p>
