Cork City Council Recycling Centres

1. Kinsale Road Civic Amenity Site & Landfill (021 4705911)

Kinsale Road, Cork

Mon – Fri: 8.00am – 3.45pm

Sat: 8.00am – 12.45pm

Please note that the wastes accepted vary from centre to centre. Please contact your local authority for more information and confirmation of the materials accepted at each site.

Tips on Recycling:

- Please separate all your materials prior to visiting the site
- Wash and squash all plastic bottles, food cans, beverage cans and tetrapaks
- Flatten cardboard boxes
- Wash out all glass bottles
- All textiles must be clean and dry
- Keep fertilizer bags as clean as possible and pack bags within bags
- All plastic packaging must be clean
- The collection of silage wrap is currently suspended. Please contact your local site for more details.

It is essential that all materials brought to the site are clean. Dirty material contaminates the recycling bins and may result in loads of recyclables being rejected. This defeats the purpose of recycling. Please ask a member of staff on site if you are unsure if your item is acceptable.

Charges apply to trailer loads of recyclable waste from domestic sources and to all domestic residual waste. Charges apply to all materials accepted from Commercial Sources. This includes materials from farms such as fertilizer bags.

Charges may vary from centre to centre.
