Planning Application Reference Number: 14/442324

Applicant: Ned Flanders

Description of Development: Construction of extension to dwellinghouse & associated works

Location: 15 Main Street, Springfield

A Chara,

I refer to the above planning application & wish to make the following submission / objection in relation to the proposed development.

I wish to object to the proposed development based on the points outlined below:

- The site notice has not been erected on site (see photos attached)
- I have concerns regarding the height of the proposed side extension & how it may over-shadow & reduce natural light within my living room.
- The proposed entrance shown on drawing PD112353-01 Rev A as I see it poses a risk to current road users. This area is frequently used by neighbouring children walking to & from the nearby school.
- The proposed development, given its prominent location next to the road, makes it a potential eyesore, particularly if it is not regularly maintained. I would implore you to ensure a condition is attached requiring regular maintenance / painting.
- There was no landscaping plan submitted with the planning application. There are many trees located on the site which enhance our community and in my opinion must be kept.

On the basis of the above, I trust my concerns will be taken into consideration prior to a decision being reached on this planning application.

Mise le Meas,

Homer Simpson
