Introduction

Dear Member

Welcome to Cork County Council's Annual Service Delivery Plan 2018 (ASDP). This Plan's purpose is to provide a corporate document that sets out service delivery objectives and performance standards for 2018.

In particular this ASDP is based on the adopted budget provisions for 2018. It also refers to:

- Legislative requirements of the Local Government Reform Act 2014 and other relevant legislation/regulation
- Cork County Council plans/strategies including the Corporate Plan 2015-2019
- National Government Policy
- Existing Service Level Agreements
- Available Resources (both staff and financial)
- The preceding years ASDP

For 2018, we have identified 185 key objectives in contrast with 165 objectives in 2017 and 111 in 2016. Each objective is assigned to a Directorate along with a desired performance standard.

We have also placed a greater emphasis on our national performance particularly vis a vis other Local Authorities and have referenced objectives with National performance indicators where relevant thus underlining the impact that objectives have on our sectoral standing. Our 2016/2015 performance outcomes are illustrated on P.39 for your information.

However, we must also be cognisant of the impending Boundary Transition process and the demands that this restructuring will place on our frontline and back office services. It is possible that Transition Process requirements may result in service reprioritisation and this will become clearer in the coming months.

In summary I consider this plan provides a clear focus to enable Cork County Council's elected members and staff to work together to develop and improve the services we deliver to our citizens.

Tim Lucey **Chief Executive**

Annual Service Delivery Plan Objectives 2018

| Item | Directorate | Principal Service | ASDP Objective | Performance Standard | Performance Indicator | PI Ranking (2016) | PI Ranking (2015) |
