

-
- The drawing shows a long, low-profile building with a central gabled section. The roof is covered with a series of blue rectangular panels, likely solar panels. The building has a series of windows along its length, some of which are shaded. On the right side, there is a portico with four columns and a pediment. The pediment is labeled 'FERMOY', 'LEISURE', and 'CENTRE'. The building is situated on a flat ground.

This architectural elevation drawing shows a building facade with a gabled roof. On the left, a blue-tinted section contains vertical panels and a small window. The main white section features a single window and a large rectangular door. The roof is gabled with three skylights.

Technical drawing of the solar panel showing front and rear views with dimensions.

Front View: The panel is 962 mm wide and 1628 mm high. It features a grid of 60 solar cells (6 columns by 10 rows).

Rear View: The panel is 962 mm wide and 1628 mm high. It shows the mounting bracket and cable connections. The distance from the top edge to the mounting bracket is 250 mm. The distance between the two mounting brackets is 110 mm. The distance between the two cable connections is 368 mm. The distance from the bottom edge to the mounting bracket is 368 mm. The distance from the bottom edge to the cable connections is 150 mm. The distance from the bottom edge to the cable connections is 256 mm.

Note:

1. This drawing to be read in conjunction with all relevant drawings and specifications
2. Do not scale, if in doubt ask.
3. All drawings to be checked on site.
4. All levels to Malin Head Datum.
