**RE: EIA Pre-Screening Assessment for the Church of Ireland Macroom Part 8 Scheme.
(Refurbishment of Protected Structure (NIAH 20852022, CO071-050002) St. Coleman's, the
former Church of Ireland, Castle Street, Macroom into a community and enterprise
facility. Retention of partially completed 1994 rear extension).**

To whom it concerns,

The proposed development, namely, the refurbishment of St. Coleman's, formerly a Church of Ireland place of worship, at Castle Street, Macroom and its conversion into a community and enterprise facility, including retention of partially completed 1994 rear extension does not fall into a project class specified in Part 1 or Part 2 of Schedule 5 of the Planning and Development Regulations which requires an EIA. It is therefore determined that an EIA is not required and can be excluded at this pre-screening stage.

Determination

The requirement for EIA can be excluded at this pre-screening stage as the proposed development does not fall within Schedule 5 of the Planning and Development Regulations.

Thomas Watt
Senior Planner
