**RECORD OF  
PROTECTED  
STRUCTURES**

## Chapter 1 Record of Protected Structures

### Introduction

- 1.1.1 The overall planning policy for the protection of historic structures in the County is set out in Volume One, Chapter 16 Built and Cultural Heritage, Section 16.3 and objective HE 16-11 "Record of Protected Structures" of this Plan.
- 1.1.2 Table 2.1.1 outlines the current Record of Protected Structures for the entire County and includes the Record of Protected Structures transferring from the 9 former Town Council Plans. Table 2.1.2 outlines the proposed additions, amendments and deletions to the Record as part of the Plan making process. Each table gives the name of the structure and the townland or street name and general location.
- 1.1.3 The locations of all the protected structures listed in the Record of Protected Structures (Table 2.1.1) are shown on the County Development Plan Map Browser in Volume 7 Maps of the Plan which is accessible through the Corkcoco.ie website.

CHAPTER 3  
**NATURE  
CONSERVATION  
SITES**

## Chapter 3 Nature Conservation Sites

### Introduction

3.1.1 The overall planning policies for nature conservation sites in County Cork are set out in Volume One, Chapter 15 Biodiversity and Environment. The lists of designated sites in County Cork are set out below in the following order; Special Areas of Conservation (SACs), Special Protection Areas (SPAs), Natural Heritage Areas (NHAs), proposed Natural Heritage Areas (pNHAs), and Geological Sites. The lists of EU sites, pNHAs and NHAs have been compiled from National Parks and Wildlife Service data. The locations of the SACs, SPAs, NHAs and pNHAs are shown on the CDP Map Browser in Volume Seven Maps of this Plan.

1053	Garrettstown Marsh	<p>The site supports lagoonal marsh and fen habitat which is of importance and value for wetland bird species including</p> <ul style="list-style-type: none"> <li>• Mallard (<i>Anas platyrhynchos</i>)</li> <li>• Mute Swan (<i>Cygnus olor</i>)</li> </ul>
1055	Glashgarriff River	<p>Site comprises a small stream and associated wooded valley with diverse humic vegetation communities. Site also supports Otter (<i>Lutra lutra</i>) and Badger (<i>Meles meles</i>).</p>
1057	Gouganebarra Lake	<p>The site comprises a glacial lake with associated aquatic vegetation including two scarce species Awlwort and Six-stamened Waterwort. Bird species associated with the lake include Grey Wagtail (<i>Motacilla cinerea</i>), Common Sandpiper and Snipe. Peregrine Falcon breed on the surrounding cliffs.</p>
1058	Great Island Channel	<p>This site, within the Great Island Channel SAC and Cork Harbour SPA, contains two important habitats in mudflats and sandflats not covered by seawater at low tide and Atlantic salt meadows. The site is an important breeding and wintering site for the following bird species: Shelduck, Teal, Wigeon, Dunlin, Black-tailed Godwit, Curlew, Golden Plover, Grey Plover.</p>
1060	James Fort	<p>This site comprises a coastal promontory which supports heath and species-rich meadow habitats.</p>
1061	Kilkeran Lake and Castlefreke Dunes	<p>This is a coastal site which has a well developed sand dune system and wetland areas of open water, freshwater marsh and swamp. The site also contains an area of mixed woodland.</p> <p>This site is also a Special Area of Conservation.</p>
1062	Killaneer House Glen	<p>This site comprises a steep sided wooded stream valley with Hazel (<i>Corylus avellana</i>)/Ash (<i>Fraxinus excelsior</i>)/Holly (<i>Ilex aquifolium</i>) woodland.</p>
1064	Leamlara Wood	<p>This site comprises a semi-natural oak woodland dominated by Oak.</p>
1065	Lough Allua	<p>This site supports an expanded section of the River Lee forming an acidic lake. Species associated with the lake include Freshwater Pearl Mussel and birds including Mallard (<i>Anas platyrhynchos</i>), Lapwing (<i>Vanellus vanellus</i>), Teal (<i>Anas crecca</i>), Tufted Duck (<i>Aythya fuligula</i>), Little Grebe (<i>Tachybaptus ruficollis</i>), Great Crested Grebe (<i>Podiceps cristatus</i>) and Grey Heron (<i>Ardea cinerea</i>).</p> <p>The site also supports woodland both acid and alluvial woodland types as well as heath habitat.</p>

1066	Lough Beg (Cork)	As part of the Cork Harbour SPA, Lough Beg plays a part in supporting internationally important numbers of waders (over 20,000) and of two particular species, the Black-tailed Godwit and Redshank. Wildfowl are relatively numerous as compared to other parts of the Harbour and include Wigeon, Teal and Shelduck Golden Plover, Lapwing and Dunlin.
1067	Lough Gal	This site supports a small lake/fen. The site also supports an extensive area of freshwater marsh and is important for wetland bird species.
1069	Lough Namaddra And Lough West	This site comprises two small upland lakes. They support a population of Pea Mussel ( <i>Pisidium hibernicum</i> ).
1071	Owen's Island	This is a small rocky island situated near the head of Dunmanus Bay. It supports populations of breeding sea birds including Common tern ( <i>Sterna hirundo</i> ), Arctic Tern ( <i>Sterna paradisaea</i> ) and Black-headed Gull ( <i>Chroicocephalus ridibundus</i> ).
1072	Priory Wood, Lismire	This is a small Oak woodland with various stages of growth.
1073	Roancarrigbeg and Roancarrimore	This site comprises two rock islands in Bantry bay. The islands support a breeding colony of Common tern ( <i>Sterna hirundo</i> ) and Arctic Tern ( <i>Sterna paradisaea</i> ) with old records of Roseate tern ( <i>Sterna dougallii</i> ). The islands also support populations of Herring Gull ( <i>Larus argentatus</i> ) and Lesser black-backed gull ( <i>Larus fuscus</i> ).
1074	Rockfarm Quarry, Little Island	This is an old limestone quarry site on Little Island. It supports calcareous grassland habitat and associated species including: <ul style="list-style-type: none"> <li>• Early-purple Orchid (<i>Orchis mascula</i>)</li> <li>• Bee Orchid (<i>Ophrys apifera</i>)</li> <li>• Dense-flowered Orchid (<i>Neotinea maculata</i>)</li> <li>• Portland Spurge (<i>Euphorbia portlandica</i>).</li> </ul>
1075	Rosscarbery Estuary	This is sea inlet fed by freshwater which is of value for its coastal maritime grassland, heath and wetland habitats and associated bird species including: <ul style="list-style-type: none"> <li>• Ringed plover (<i>Charadrius hiaticula</i>)</li> <li>• Black-tailed godwit (<i>Limosa limosa</i>)</li> <li>• Curlew (<i>Numenius arquata</i>)</li> <li>• Oystercatcher (<i>Haematopus ostralegus</i>)</li> <li>• Greenshank (<i>Tringa nebularia</i>)</li> </ul> <p>The site hosts good diversity of plant species.</p>
1076	Rostellan Lough, Aghada Shore and Poul nabibe Inlet	This site occupies the north-east corner of Cork Harbour SPA, west of Saleen and Rostellan. Little Grebe, Pochard, and Tufted Duck are frequent species, along with Mallard and Snipe. Mudflats occur westwards to Aghada and these were utilised by many feeding waders, while the sea offshore is used by species such as Scaup, Goldeneye and Great Crested Grebe.
1077	Seven Heads And Dunworly Bay	This is a coastal headland site. The Seven Heads SPA (4191) lies within pNHA boundary  The site supports a breeding population of Chough ( <i>Pyrrhocorax pyrrhocorax</i> ).
1080	Blackwater Valley (Killavullen)	This site, which forms part of the Blackwater River (Cork/Waterford) SAC is situated just downstream (east) of Killavullen Village within an area of limestone. Large prominent outcrops of limestone and caves can be seen along this section. Other habitats included within this site are broad leaved dry woodland and scrub.

1082	Dunkettle Shore	This site is located at the mouth of Glashaboy River, where it meets the Lee estuary. It is an integral part of Cork Harbour SPA. It supports a range of wetland habitats and is an important overwintering area for a range of wetland bird species including: Teal, Oystercatcher, Ringed Plover, Curlew, Black-tailed Godwit, Bar-tailed Godwit, Redshank, Knot, Dunlin and Lapwing. A Heronry occurs to the east of the site.
1084	Whitegate Bay	This site forms part of the Cork Harbour Special Protection Area. It comprises open water with extensive mudflats. Species particularly associated with this part of the SPA include Grebes, diving ducks and waders and include Shelduck, Wigeon, Dunlin, Knot, Curlew, Redshank, Bar-tailed Godwit, turnstone, Oystercatcher and Ringed Plover.
1169	Brown's Farm, Togher Cross Roads	Recorded as supporting protected plant - Golden Dock ( <i>Rumex maritimus</i> ).
1183	Clasharinka Pond	This is a large pond which supports the rare plant species Orange Foxtail ( <i>Alopecurus aequalis</i> ).
1230	Courtmacsherry Estuary	This site supports intertidal and coastal terrestrial habitats including dune systems. It also supports populations of wetland birds. The site is also designated as a Special Area of Conservation and a Special Protection Area.
1235	Ballyquirk Pond	This site comprises a small overgrown pond which supports aquatic plant species including the rare Orange Foxtail ( <i>Alopecurus aequalis</i> ).
1248	Prohus Wood	Birch/holly/oak woodland.
1284	Cappul Bridge	This site includes the tidal reaches and the banks of the Owenagappul river. Habitats within the site include rocky outcrops, heath and damp grassland. The site supports an abundant population of the Flora Protection Order species, Betony.
1408	Carrigacrump Caves	This is a cave system which is located in an area of outcropping limestone. The site supports an unusual calcareous flora including locally rare plants: <ul style="list-style-type: none"> <li>• Carline Thistle (<i>Carlina vulgaris</i>)</li> <li>• Long-stalked Crane's-bill (<i>Geranium columbinum</i>).</li> </ul>
1498	Dirk Bay	This coastal site supports both Sand dunes and Freshwater Marsh habitat. Rare plants and locally unusual plants associated with the site include Dodder ( <i>Cuscuta epithimum</i> ), Wild Clary ( <i>Salvia verbenaca</i> ), Autumn Lady's-tresses ( <i>Spiranthes spiralis</i> ) and Cowslip ( <i>Primula veris</i> ).
1515	Bandon Valley Below Inishannon	This site comprises wetland and woodland (Shippool Wood). Habitats. Hairstreak Butterfly has been recorded in the woodlands.
1537	Rosnashunsoge	The site comprises a wet, grazed, trampled field which supports a population of the rare and protected plant species Irish St. John's-wort ( <i>Hypericum canadense</i> ). This species only occurs in two areas in Ireland, namely north-east of Glengarriff and around Lough Mask Co. Mayo.
1547	Castletownshend	Woodland site supports a population of the protected Killarney Fern.
1561	Awbeg Valley (Castletownroche)	This site incorporates a 3km stretch of the Awbeg River and includes an area of dry broad-leaved woodland with an interesting plant community. The site forms part of the Blackwater River Special Area of Conservation.

Table 2.3.4: Proposed Natural Heritage Areas County Cork

Site Code	pNHA Site Name	Features of Interest
1740	Bandon Valley Above Inishannon	<p>This site is of value for the occurrence of semi-natural woodland. Species associated with the site include: Oak woodland</p> <ul style="list-style-type: none"> <li>• Otter (<i>Lutra lutra</i>)</li> <li>• Cormorant (<i>Phalacrocorax carbo</i>)</li> <li>• Grey Heron (<i>Ardea cinerea</i>)</li> <li>• Sparrowhawk (<i>Accipiter nisus</i>)</li> <li>• Jay (<i>Garrulus glandarius hibernicus</i>)</li> <li>• Woodcock (<i>Scolopax rusticola</i>)</li> </ul>
1793	Blackwater Valley (Ballincurrig Wood)	<p>This is a Willow Alder woodland located 1km east of Killavullen on the Blackwater River. The site supports the rare and protected species Starred Wood-sedge (<i>Carex depauperata</i>).</p>
1794	Blackwater Valley (Kilcummer)	<p>This pNHA is located along a 2km stretch of the banks of the Blackwater River west of Ballyhooley. The site supports an area of wet woodland (Alder and Willow). It also supports marsh habitat along the edge of the river. The site forms part of the Blackwater River Special Area of Conservation.</p>
1795	Blackwater Valley (Killathy Wood)	<p>This 1km long site is situated along the north bank of the Blackwater, 1.5km east of Ballyhooley. It is a woodland dominated by Ash (<i>Fraxinus excelsior</i>) with some Oak (<i>Quercus petraea</i>) and Scot's pine (<i>Pinus sylvestris</i>). Elm (<i>Ulmus</i> species) were present in the wood but many have been killed by Dutch Elm disease. The site forms part of the Blackwater River Special Area of Conservation.</p>
1796	Blackwater Valley (Cregg)	<p>This pNHA is situated in the south of the River Blackwater channel, 3km west of Fermoy town, County Cork. It comprises dry deciduous woodland, lowland dry grassland, the river channel, scrub and mixed woodland. The site forms part of the Blackwater River Special Area of Conservation.</p>
1797	Blackwater Valley (the Beech Wood)	<p>This site is situated in the Castle Hyde Estate, 0.5km west of Fermoy. It comprises both wet and dry deciduous woodland, the dominant species are Oak (<i>Quercus petraea</i>) and Beech (<i>Fagus sylvatica</i>). There is a good ground flora and many woodland birds, the wood also provides cover and seclusion for otters (<i>Lutra lutra</i>) and other mammals. The site forms part of the Blackwater River Special Area of Conservation.</p>
1826	Currakeal	<p>The site comprises a grazed, poached peaty grassland which supports a population of the rare and protected plant species Irish St. John's-wort (<i>Hypericum canadense</i>). This species only occurs in two areas in Ireland, namely north-east of Glengarriff and around Lough Mask Co. Mayo.</p>
1829	Ballinaltig Beg Pond	<p>This site comprises a small pond within an area of agricultural grassland. The site has been recorded as supporting protected plant - Golden Dock (<i>Rumex maritimus</i>).</p>
1854	Boylegrove Wood	<p>This site comprises a small deciduous woodland which is part of an old estate with Sessile Oak (<i>Quercus petraea</i>) and Downy Birch (<i>Betula pubescens</i>).</p>
1873	Derryclogher (Knockboy) Bog	<p>The main conservation interest of the site is the active mountain blanket bog, an EU Habitats Directive Annex I priority habitat. The bogs occur as a complex mosaic with other upland habitats, namely grassland, heath, stream flushes and exposed rock. The site shares its boundaries with the Derryclogher (Knockboy) Bog SAC.</p>

Table 2.3.4: Proposed Natural Heritage Areas County Cork

Site Code	pNHA Site Name	Features of Interest
1879	Glanmore Bog	<p>This pNHA is of conservation interest for its active blanket bog, an EU Habitats Directive Annex I priority habitat. One of the most important areas is a small hanging valley bog situated between the meanders of a mountain stream. Wet heath is the dominant habitat at the site and often occurs in association with upland grassland, exposed rock, bog and dry heath. The heath is dominated by Purple Moor-grass (<i>Molinia caerulea</i>), with ericoid species, such as Heather and Cross-leaved Heath (<i>Erica tetralix</i>), being relatively scarce. Glenbeg Lough, an oligotrophic (nutrient-poor) lake, represents another EU Habitats Directive Annex I habitat. Floating river vegetation, a habitat that is listed on Annex I of the EU habitats Directive is found in two rivers in the site. The site is also important for the following species:</p> <ul style="list-style-type: none"> <li>• Freshwater Pearl Mussel (<i>Margaritifera margaritifera</i>)</li> <li>• Chough (<i>Pyrrhocorax pyrrhocorax</i>)</li> <li>• Killarney Fern (<i>Trichomanes speciosum</i>)</li> </ul> <p>The site overlaps the Glanmore Bog SAC</p>
1886	Ballagh Bog	<p>Situated on the Cork Kerry border near Gougane Barra, this site supports upland habitats and associated species.</p>
1890	Mullaghanish Bog	<p>Mullaghanish Bog is a small, good-quality mountain blanket bog, a priority habitat listed on Annex II of the EU Habitats Directive. Mullaghanish Bog Special Area of Conservation is found within this site.</p>
1966	Minane Bridge Marsh	<p>This site comprises the narrow Ringabella estuary incorporating flooded wet fields supporting marsh vegetation and colonising woodland. The site is important for birds, butterflies and other insects.</p>
1977	Sheelane Island	<p>This is a small rocky island in Bantry Bay which supports breeding populations of Herring Gull (<i>Larus argentatus</i>) and Cormorant (<i>Phalacrocorax carbo</i>).</p>
1978	Ballycotton Islands	<p>The primary interest of these islands is the breeding sea bird populations. The islands support populations of</p> <ul style="list-style-type: none"> <li>• Herring Gull (<i>Larus argentatus</i>)</li> <li>• Cormorant (<i>Phalacrocorax carbo</i>)</li> <li>• Lesser Black-backed Gull (<i>Larus fuscus</i>)</li> <li>• Fulmar (<i>Fulmarus glacialis</i>)</li> <li>• Chough (<i>Pyrrhocorax pyrrhocorax</i>)</li> <li>• Shelduck (<i>Tadorna tadorna</i>)</li> </ul> <p>Small numbers of Grey Seal (<i>Halichoerus grypus</i>) are regularly seen in the sea surrounding the islands.</p>
1979	Monkstown Creek	<p>The area is of value because its mudflats provide an important feeding area for waterfowl including: Shelduck, Teal, Redshank and Dunlin. The pNHA also supports a Cormorant roosting site.</p> <p>The site forms part of Cork Harbour SPA.</p>
1985	Kilkinnikin	<p>This site comprises an area of heath habitat which supports the rare and protected plant species Betony (<i>Stachys officinalis</i>).</p>
1986	Garinish Point	<p>This coastal headland side supports breeding populations of</p> <ul style="list-style-type: none"> <li>• Fulmar (<i>Fulmarus glacialis</i>)</li> <li>• Chough (<i>Pyrrhocorax pyrrhocorax</i>)</li> </ul> <p>It lies within the Beara Peninsula SPA (4155)</p>

Table 2.3.4: Proposed Natural Heritage Areas County Cork

Site Code	pNHA Site Name	Features of Interest
1987	Cuskinny Marsh	This is a small brackish lake site located on the Great Island, east of Cobh. The site is of value for its associated wet woodland and wetland habitats and for the associated wetland bird species.
1990	Owenboy River	This site forms part of Cork Harbour SPA. It supports a range of wetland habitats and is an important overwintering area for a range of wetland bird species including and Dunlin, Redshank and Curlew.
2036	Ballyhoura Mountains	This site consists of wet heath occurring in mosaic with blanket bog and dry heath. These three habitats are Annex I habitat under the EU Habitats Directive.
2037	Carrigeenamronety Hill	The site is on eastern edge Ballyhoura mountains which straddles the border of counties Cork and Limerick. It is important site because it contains a good population of the rare and protected Killarney Fern, a species listed on Annex II of the E.U. Habitats Directive.
2049	Domestic Building Near Glengarriff	This site is used as a hibernation site by lesser horseshoe bats ( <i>Rhinolophus hipposideros</i> )
2050	Cregg Castle	Nursery Roost for Daubenton's Bat ( <i>Myotis daubentonii</i> )
2086	Ballintlea Wood	This site supports a fine example of a deep, wooded ravine with Oak ( <i>Quercus</i> spp.), Ash ( <i>Fraxinus excelsior</i> ), Hazel ( <i>Corylus avellana</i> ) and Birch ( <i>Betula</i> spp.).
2097	Convamore, Ballyhooly (Near Fermoy)	Nursery roost for Daubenton's Bat ( <i>Myotis daubentonii</i> )
2099	Carriganass Castle, Near Kealkill	Nursery roost for Daubenton's Bat ( <i>Myotis daubentonii</i> )

## Areas of Geological Interest

Table 2.3.5: Areas of Geological Interest County Cork

Site	Geological Interest	Location
Allihies Dooneen Mine	Economic Geology - unusual minerals through reaction with seawater; Mineralogy - copper secondary minerals	Allihies
Allihies Mountain Mine	Economic geology - vein system mining; Mineralogy - copper secondary minerals	Allihies
Allihies, Ballydonegan Strand	Economic Geology; Coastal Geomorphology - mine waste sand beach and dunes	Ballydonegan
Ardmore	Devonian	Ardmore
Ballinatona, Meelin Spring	Warm spring	Meelin, Newcastle
Ballinglanna	Upper Carboniferous	Ballinglanna
Ballinglanna Cove	Carboniferous foreshore section with rock platform	Ballinglanna, Clonakilty
Ballybeg Quarry	Lower Carboniferous bryozoan reef facies	Buttevant
Ballyclogh Quarry	Lower Carboniferous stratigraphy	Ballyclogh
Ballycotton	Devonian coastal section	Ballycotton
Ballycotton Bay	Quaternary - Glaciomarine mud and sand	Ballycotton
Ballycroneen Bay	Quaternary - Irish Sea Glacier till: type site	Ballycroneen Bay
Ballydesmond Quarry	Quaternary - tundra frost polygons: best example in Ireland	Ballydesmond
Ballygarvan Quarry	Lower Carboniferous	Ballygarvan
Ballygiblin Quarry	Tertiary cave sediments, karst, Carboniferous volcanic	Ballygiblin
Ballyheady	Carboniferous fossil fish	Ballyheady
Ballykenly	Karst spring	Ballykenly
Baltimore Harbour	Coastal Geomorphology	Baltimore Harbour
Baneshane Quarry	Lower Carboniferous - Red Marble	Baneshane
Bantry Drumlins	Quaternary - drumlin swarm (local mountain glaciation)	Bantry
Barley Lake	Quaternary - glacial corrie	Glengarriff
Black Ball Head	Igneous intrusion - unusual megacryst mineralogy	Carriganeen, Bunnadoonroe
Blackball Head - Whiteball Head	Lower Carboniferous	Canalough, Loughanebeg

Table 2.3.5: Areas of Geological Interest County Cork

Site	Geological Interest	Location
Blackball Head to Cahermore	Devonian	Cahermore, Loughanebeg, Canalough
Blackrock diamond quarry	Mineralogy	Ballintemple
Boggeragh Mountains	Fluvial/lacustrine - planation surface	Millstreet
Broadstrand - Seven Heads	Upper Carboniferous	Broadstrand, Seven Heads
Buttevant/ Ballybeg Quarry	Lower Carboniferous stratigraphy, fossils: working quarry	Ballybeg West
Carraigcliona (Near Mallow)	Devonian volcanics	Carraigcliona
Castlepook Cave	Karst - maze cave with rich fossil mammal fauna	Castlepook South
Castletownshend, Castlehaven	Devonian	Drishane
Cloyne	Karst - depression; Tertiary - ball clay and lignite	Cloyne
Cloyne Clay Pits	Mid-Jurassic fossil spores in clay depression	Lissanly and Spital
Cod's Head	Devonian	Reentrusk
Cork Harbour	Coastal Geomorphology - structural features, raised beaches; Devonian (ORS),	Cork Harbour
Cork Red Marble:	Economic Geology - Cork Red Marble	Baneshane, Little Island &/or Midleton
Corkbeg Island	Lower Carboniferous	Corkbeg
Courtmacsherry Bay - Old Head of Kinsale	Coastal Geomorphology - raised marine platform across Carboniferous sandstones	Courtmacsherry, Old Head of Kinsale
Courtmacsherry Beach - Raised beach	Quaternary -raised beach and till	Ballinspittle
Crookhaven [Cu] + Brow Head	Economic Geology - copper mines, red beds	Crookhaven
Dhurode Mine	Mineralogy - copper and other minerals; Economic Geology	Dhurode
Dower Spring, Castlemartyr	Karst spring	Castlemartyr
Dunbeacon Castle-Dunmanus Bay	Lower Carboniferous	Dunbeacon, Bantry
Dunmanus Castle northwards	Devonian	Dunmanus East
East Glengarriff Harbour to Ardnamanna Point	Devonian	Numerous Townlands
East Toe Head	Devonian	Gortacrossig

Table 2.3.5: Areas of Geological Interest County Cork

Site	Geological Interest	Location
Foilcoagh Bay	Devonian marine fossils in continental succession	Cape Clear Island
Foley Cave	Quaternary/Karst - cave fauna	Bridgetown Upper, Con-naberry
Fountaintown Creek to Ringabella Beach	Lower Carboniferous fossils	Ringabella Tn, Minnane Bridge
Galley Head - Belacon Cove	Lower Carboniferous	Dundeedy, Clonakilty
Glandore (Aughatubrid Mine)	Mineralogy - 'corkite' type locality; unique in Ireland	Glandore
Glandore/Rosscarbery etc	Fluvial/Lacustrine - incisions, drowned valleys	Glandore/Rosscarbery etc
Horse Island [Cu]	Economic Geology - copper mineralisation in old workings	Horse Island
Howe's Strand	Quaternary - subglacial meltwater furrows across marine rock platform; unque to Ireland and GB	Howe's Strand
Killumney Moraine	Quaternary - glacial moraine	Killumney
Kilworth	Victorian pumping station/Springs	Kilworth
Knockadoon Head	Quaternary - glacially striated rock platform	Knockadoon Head
Lady's Well, Mallow	Warm spring	Mallow
Ladyswell/Duneen/Clonakilty [Ba]	Economic Geology - steeply-dipping barite mineral vein.	Duneen
Laharran Quarry, Minane Bridge	Mineralogy - 'wavellite' mineral; Lower Carboniferous stratigraphy	Minane Bridge
Lee and Blackwater Valleys	Quaternary - outwash trains and deltas	Lee and Blackwater Valleys
Little Island	Cork Red Marble fossils	Little Island
Lough Beg Section	Lower Carboniferous coastal section, armour stone	Loughbeg, Curraghbinny
Lough Hyne	Coastal lagoon with solid rock barrier	Lough Hyne
Meenskeha	Quaternary - fossil pingos (ice-lens mounds)	Millstreet
Midleton Distillery Springs	Karst springs	Midleton
Mizen Head - Barley Cove	Coastal Geomorphology	Corran Beg, Corran More, Gannawee, Dough
Modrana	Economic Geology -slate mines	Clonakilty

Site	Geological Interest	Location
Mount Gabriel [Cu, Ba]	Economic Geology - Bronze Age copper mines, barite veins	Mount Gabriel
Myrtleville to Ram's Head	Devonian section	Numerous Townlands
NE coast of Cape Clear/Foil-coagh Bay	Devonian coastal section	Firbreaga
Nohaval Cove - Turrets	Lower Carboniferous	Reaniesglen, Dunbogey
Old Head Kinsale (West coast)	Upper Carboniferous	Courtmacsherry, Old Head of Kinsale
Old Head of Kinsale	Devonian and Carboniferous type section for Munster Basin	Ballinspittle, Downmacpatrick, Kinsale
Owentaraglin River	Fluvial meanders	Millstreet
Pass of Keimaneigh	Quaternary - spillway	Derreendonee, Inchi Beg
Pigeonrock Glen in Galtys	Devonian	Knocknascrow, Carrigeen Mtn
Reenydonagan Point	Lower Carboniferous microfauna	Reenydonagan, Bantry
Relane Point	Lower Carboniferous	Relane Point
Ringabella Bay and Point	Quaternary - low drift cliff and striated raised platform	Ringabella
Ringabella Section - Fountainstown - Myrtleville - Rams Head	Lower Carboniferous and Devonian stratigraphy	Ringabella, Kinsale
Ringaskiddy, Golden Rock	Lower Carboniferous	Ringaskiddy
River Blackwater	Fluvial straths	Rathmore, Millstreet
River Sullane	Fluvial - river channel within bog	Ballymakeery, Macroom
Road cuts near Youghal (Youghal bridge)	Devonian	Youghal
Rock Farm Quarry, Little Island	Lower Carboniferous - type section for Cork Red Marble and younger limestones	Little Island
Rock Forest, Mallow	Mineralogy - 'cotterite' mineral type locality	Mallow
Sandycove to East Toe Head	Devonian	Ballycahane, Scobaun, Farranconnor, Gortacrossig
Shanballymore	Karst spring	Shanballymore

Table 2.3.5: Areas of Geological Interest County Cork

Site	Geological Interest	Location
Shot Head	Devonian coastal section	Coosard
Simon's Cove	Quaternary -marine rock platform, subglacial erosion and deposition	Clonakilty Bay
Subulter Quarry	Lower Carboniferous - dolomitised Waulsortian Limestone: working quarry	Subulter
The Gearagh, River Lee	Fluvial - anastomosing channel	Gearagh West
Toe Head	Late Devonian plant fossils	Toe Head
Trinity Well	Warm spring	Newmarket
Tubbrid, Millstreet	Karst spring	Tubbrid
Whiddy Island (N west Coast)	Upper Carboniferous (Namurian) coastal section	Whiddy Island
White Bay - Roche's point - Gyleen	Devonian	White Bay - Roche's point - Gyleen
Youghal (under light-house)	Devonian	Youghal
Youghal Bay	Coastal geomorphology - intertidal zone, sand spit, estuary, cliffs, dunes	Youghal Bay
Kanturk coalfield	Economic Geology - coal measures	Dromagh
Gortnabinna	Devonian trace fossils	Gortnabinna

CHAPTER 4  
**HABITATS AND  
SPECIES DATA**

## Chapter 4 Habitats and Species Data

### Introduction

- 4.1.1 The overall planning policy for the Habitats and Species Data is set out in Chapter 15 Biodiversity and Environment of Volume One, of the Plan, paragraph 15.3.1 to 15.3.10 and objective 15-2 "Protected Sites, Habitats and Species". The following lists are set out below; Habitats of conservation importance, Protected and Rare Plant Species Occurring in Cork and Red Listed Plant Species Protected Animal Species (other than Birds), Bird Species of Conservation Concern and Special Conservation Significance in County Cork. Habitats and species lists have been taken from the Cork County Biodiversity Action Plan 2009-2014.

### Habitats and Species of Conservation Importance in County Cork

**Table 2.4.1: Habitats of Conservation Importance in County Cork**

Irish Habitat Classification (Fossitt 2000)	Annex I Habitats	Examples of SACs where habitats are found
<b>Freshwater Habitats</b>		
Dystrophic lakes FL1	Natural dystrophic lakes and ponds	Caha Mountains.
Acid oligotrophic lakes FL2	Oligotrophic waters containing very few minerals of sandy plains	Glanmore Bog.
Acid oligotrophic lakes FL2	Oligotrophic to mesotrophic standing waters	Caha Mountains, Caherbarnagh (part of Killarney National Park).
Eroding/upland rivers FW1 Depositing/ lowland rivers FW2	Watercourses of plain to montane levels with aquatic vegetation	The Gearagh, Glanmore Bog, Bandon River, River Blackwater.
Eutrophic lakes FL5		
Reed and large sedge swamps FS1		
Marsh GM1		
<b>Grassland Habitats</b>		
Dry meadows and grassy verges GS2	Lowland hay meadows	Roaringwater Bay & Islands.
Dry calcareous grassland		
Species-rich wet grassland		
Molinia grassland		
<b>Heath Habitats</b>		
Dry siliceous heath HH1 Dry calcareous heath HH2	European dry heath	Roaringwater Bay & Islands, Sheep's Head, Three Castle Head to Mizen Head, Barley Cove To Ballyrisode Point, Kenmare River, Ballyhoura Mountains, Caherbarnagh (part of Killarney National Park).
Wet heath HH3	Northern Atlantic wet heaths with Erica tetralix	Sheep's Head, Caha Mountains, Cleanderry Wood, Glanmore Bog, Ballyhoura Mountains.
Montane heath HH4	Alpine and boreal heaths	Caha Mountains.
<b>Woodland Habitats</b>		
Oak-birch-holly woodland WN1	Old sessile oak woods with Ilex and Blechnum in the British Isles	Glengarriff Harbour & woodland, St Gobnet's Wood, The Gearagh, Cleanderry Wood, Blackwater River.

**Table 2.4.1: Habitats of Conservation Importance in County Cork**

Irish Habitat Classification (Fossitt 2000)	Annex I Habitats	Examples of SACs where habitats are found
Wet pedunculate oak-ash woodland WN4	Alluvial forests with <i>Alnus glutinosa</i> and <i>Fraxinus excelsior</i>	Dunbeacon Shingle, Glengarriff Harbour & woodland, The Gearagh, Bandon River, Blackwater River.
Oak-ash-hazel woodland WN2		
Yew woodland WN3		
Wet willowalder-ash woodland WN6		
<b>Peatland Habitats</b>		
Upland blanket bog PB2	Blanket bog (*if active bog)	Caha Mountains, Glanmore Bog, Derryclogher Bog, Mullaghanish Bog, Ballyhoura Mountains, Caherbarnagh (part of Killarney National Park).
Cutover bog PB4		
Lowland blanket bog PB3		
Poor fen and flush PF2		
Transition mire PF3		
<b>Exposed Rock</b>		
Exposed siliceous rock ER1	Siliceous rocky slopes with chasmo-phytic vegetation	Caha Mountains.
Exposed calcareous rock ER2	Calcareous rocky slopes with chasmo-phytic vegetation	Caha Mountains.
Siliceous scree and loose rock ER3	Siliceous rocky slopes with chasmo-phytic vegetation	Caha Mountains.
Calcareous scree and loose rock ER4	Calcareous rocky slopes with chasmo-phytic vegetation	Caha Mountains.
<b>Coastal Habitats</b>		
Rocky sea cliffs CS1, sea stacks and islets CS2, sedimentary sea cliffs CS3	Vegetated sea cliffs of the Atlantic and Baltic coasts	Roaringwater Bay & Islands, Three Castle Head to Mizen Head, Kenmare River.
Lagoons and saline lakes CW1	*Coastal lagoons	Kilkeran Lake and Castlereke Dunes, Farranamanagh Lough.
Embryonic dunes CD1	Embryonic shifting dunes	Clonakilty Bay, Courtmacsherry Bay, Kilkeran Lake and Castlereke Dunes.
Marram dunes CD2	Shifting dunes along the shoreline with <i>Ammophila arenaria</i> ('white dunes')	Clonakilty Bay, Barley Cove To Ballyrisode Point, Courtmacsherry Bay, Kenmare River, Kilkeran Lake and Castlereke Dunes.
Fixed dunes CD3	*Fixed coastal dunes with herbaceous vegetation ('grey dunes')	Clonakilty Bay, Barley Cove To Ballyrisode Point, Kilkeran Lake and Castlereke Dunes, Courtmacsherry Bay, Kenmare River.
Fixed dunes CD3	*Atlantic decalcified fixed dunes	Clonakilty Bay.
Lower saltmarsh CM1	Salicornia and other annuals colonising mud and sand	Ballymacoda, Barley Cove To Ballyrisode Point, Courtmacsherry Bay, Blackwater River.

**Table 2.4.1: Habitats of Conservation Importance in County Cork**

<b>Irish Habitat Classification (Fossitt 2000)</b>	<b>Annex I Habitats</b>	<b>Examples of SACs where habitats are found</b>
Lower saltmarsh CM1	Spartina swards	Great Island Channel.
Lower saltmarsh CM1	Atlantic salt meadows	Ballymacoda, Barley Cove To Ballyrisode Point, Great Island Channel, Courtmacsherry Bay, Kenmare River, Blackwater River.
Upper salt marsh CM2	Mediterranean salt meadows	Barley Cove To Ballyrisode Point, Courtmacsherry Bay, Kenmare River, Blackwater River.
Shingle and gravel banks CB1	Spartina swards Atlantic salt meadows Mediterranean salt meadows	Barley Cove To Ballyrisode Point, Courtmacsherry Bay, Kenmare River, Dunbeacon Shingle, Reen Point Shingle, Farranamanagh Lough.
<b>Marine Habitats</b>		
Littoral Rock LR	Reefs	Lough Hyne, Roaringwater Bay & Islands, Kenmare River.
Sea Caves LR5	Submerged or partially submerged sea caves	Lough Hyne, Roaringwater Bay & Islands, Kenmare River.
Shingle & gravel shores LS1	Annual vegetation of drift lines	Clonakilty Bay, Courtmacsherry Bay.
Littoral sediments LS	Mudflats and sandflats not covered by water at low tide	Ballymacoda, Clonakilty Bay, Barley Cove To Ballyrisode Point, Great Island Channel, Courtmacsherry Bay, Blackwater River.
Estuaries MW4	Estuaries	Ballymacoda, Courtmacsherry Bay, Blackwater River.
Sea inlets and bays MW2	Large shallow inlets & bays	Lough Hyne, Roaringwater Ba+A22:-C46y & Islands, Kenmare River.
