1.1 Welcome to the Cork County Development Plan Map Browser

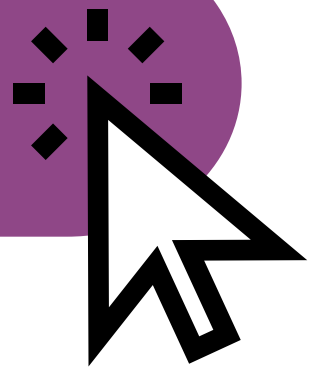

1.1.1 Welcome to the CDP Map Browser, a free and easy to use public information system displaying the detailed maps in the Development Plan for County Cork. The map browser incorporates many different sets of spatial information and is useful in its ability to overlay and analyse the data in a web browser environment.

1.1.2 The aim of the Map Browser is to give the public access to large scale detailed development plan policy map versions of all the key small scale policy maps contained in the Development Plan, Volume One "Main Policy Material", provide information on the important heritage and environmental features listed in Volume Two "Heritage and Amenity" and provide settlement level information, including landuse zoning maps contained in Volumes Three, Four and Five of the Plan. This allows the public to be better informed about the policies contained in the plan and how they affect the county.

1.2 How to access the Map Browser

1.2.1 To continue and use the Map Browser click the Launch CDP Map Browser link below.
