2.6.7	ENERGY EFFICIENCY STATUS	56
2.7	GREEN SCHOOLS PROGRAMME	58

1. Part 1 News & Updates

1.1 National Climate Action Plan 2023 (CAP 23)

The government published CAP 23 on the 21st December last. Some key elements as follows:

- Increased role for Local Government in Citizen Engagement;
- A Just Transition Commission;
- Unprecedented investment in climate action over the next decade;
- Enhanced analytical capacity is being developed by the DPER;
- Ambitious renewable energy targets -9 GW from onshore wind, 8 GW from solar, and at least 5 GW of offshore wind energy by 2030;
- IDA Ireland, Enterprise Ireland and the Sustainable Energy Authority of Ireland will work to help decarbonise industry and align grants and other supports with emissions reductions;
- Acknowledgement of need to work out ways to assist broader society with the costs of retrofitting;
- Fleet electrification and use of biofuels will continue to provide the greatest share of emissions abatement;
- Guided by the Food Vision 2030 Strategy, Farmers and food producers to prioritise environmental, social, and economic sustainability;
- The Land Use Review will inform the sector's sectoral emission ceiling;
- Reduce food waste by 50%
- Ensure that all plastic packaging is reusable or recyclable by 2030;

PUBLIC SECTOR

The public sector will play a leadership role in driving far-reaching climate action across its buildings, transport, waste, and energy usage, as well as wider society. This will include reducing emissions by 51% by 2030 and increasing the improvement in energy efficiency in the public sector from the 33% target in 2020 to 50% by 2030, as well as increasing climate literacy in the public sector, implementing green public procurement and retrofitting public sector buildings.

GOVERNANCE

The actions to deliver on our ambition and decarbonise our economy will be supported by a robust governance structure that now includes Ireland's first carbon budget programme and sectoral emission ceilings. The Climate Action Delivery Board will have an enhanced role in relation to delivery, including providing recommendations for overcoming barriers, while taskforces will be established to focus on key specific areas or initiatives of climate delivery that require cross-Government collaboration. In addition to this, an annual climate action planning and reporting cycle will be introduced.

The Environmental Protection Agency and the Climate Change Advisory Council reports will continue to inform the monitoring of Ireland's climate action performance on a sectoral level. The Government will annually update the new Climate Action Plan and the roadmap of actions to reflect developments in the previous year, developments in technology and research in relation to climate action, and to ensure the required emissions reductions are achieved.

(01_2023_S)

1.2 Climate Action Regional Office (CARO) Update

- **LA Climate Action Plans (LACAP)** – signing of ministerial order requiring LAs to commence process of drafting Climate Action Plans is likely to occur on or before 7th March 2023.
- Latest CARO **Draft Guidance document on preparation of Local Authority Climate Action Plans (LACAP)** now also covers the question of Decarbonization Zones (such as Macroom) and how they can be progressed.
- **CARO - Guidance for the Climate Adaptation of Regional & Local Roads:** CCMA CATCEN committee meeting 12th December, agreed the following strategy / projects were:
 - **Phase 2 Strategy Document**
 - **Phase 3 – Scoping Report on Carbon Management & Green Public Procurement**
- **Coastal Erosion Guidance Document** – final report of working group approved by CCMA - CARO is currently engaging with DHLGH re funding to draft a guidance document.
- **CARO - Energy Manual for LA Municipal Buildings** - An Energy Manual to assist Local Authorities in managing various building types is at an advanced stage and is currently being reviewed and finalised by CARO.

(01_2023_S)

1.3 Waste Enforcement Regional Lead Authority (WERLA)

1.3.1 Single Use Plastics Directive (SUPs).

There are several Regulations due for publication in the coming months to cover the levy on single use coffee cups, fishing nets etc. The respective roles and responsibilities of Local Authorities and Environmental Protection Agency remain to be confirmed.

1.3.2 Exemptions under Burning Regulations

The **Exemption which allowed farmers to dispose of green agricultural waste by burning** e.g untreated/uncontaminated wood, trees, trimmings, leaves, bushes has again expired on the 1st of January 2023. A working group was established by Minister in 2022 to look at alternatives – it was to have reported by December. No communication from DECC yet, so as of now the disposal of green agricultural waste by burning is illegal.

1.3.3 Deposit Return Scheme (DRS) for plastic bottles and aluminium cans.

Minister of State with responsibility for Communications and Circular Economy, Ossian Smyth, launched Ireland's national Deposit Return Scheme (DRS) on the 28th of November last. The Scheme will include PET plastic bottles and aluminium and steel cans between 150ml and 3 litres. A deposit of 15c will apply to containers 500mls or less and a deposit of 25c for each container above 500ml. The Scheme will be operated by Deposit Return Scheme Ireland CLG, trading as **Re-turn**. All producers and retailers are legally obliged to register with Re-turn. Registration of producers and retailers will be the key focus for 2023 with registration now open at www.re-turn.ie. The planned 'go-live' date for consumers in February 2024.

For more information on the scheme go to deposit-return-scheme/

(01_2023_S)

1.4 Amendment to EU Good Agricultural Practice for Protection of Waters Regulations.

On 20th December last the Minister published amendments to the European Union (Good Agricultural Practice for Protection of Waters) Regulations 2022, also known as the Nitrates Regulations.

The purpose of the amended regulations is to give effect to changes made under the Common Agricultural Policy Strategic Plan in following areas;

- width of buffers strips has been increased, (i.e the distance from waters where which fertiliser can be spread, and where lands can be cultivated),
- changes to facilitate the processing and sharing of data to enable calculation of the livestock excretion rate bands for dairy farms, (the higher the milk yield/cow the higher the excretion rate/cow), which will impact on maximum stocking rates on dairy farms,
- reducing the storage height of silage bales outside of farmyards, (no more than 2 bales high to minimise effluent loss),
- to provide for an earlier reporting date for the Environmental Protection Agency Nitrates Action Programme (NAP) Review to ensure that there is sufficient time to inform development of the next NAP, (changed from 30th June 2025 to 1st October 2024)

In addition, other articles have been amended to provide clarification, and three definitions on poaching, grassland stocking rate, and dairy cow, have also been added.

The amended regulations can be viewed at [EUROPEAN UNION \(GOOD AGRICULTURAL PRACTICE FOR PROTECTION OF WATERS\) \(AMENDMENT\)\(No. 2\) REGULATIONS 2022, S.I. No. 716 of 2022](#)

1.5 Particulate Matter Monitoring goes live in Carrigaline.

A monitor, measuring Particulate Matter (PM) emissions has recently been commissioned in Carrigaline with real time information being available via the EPA's airquality.ie network.

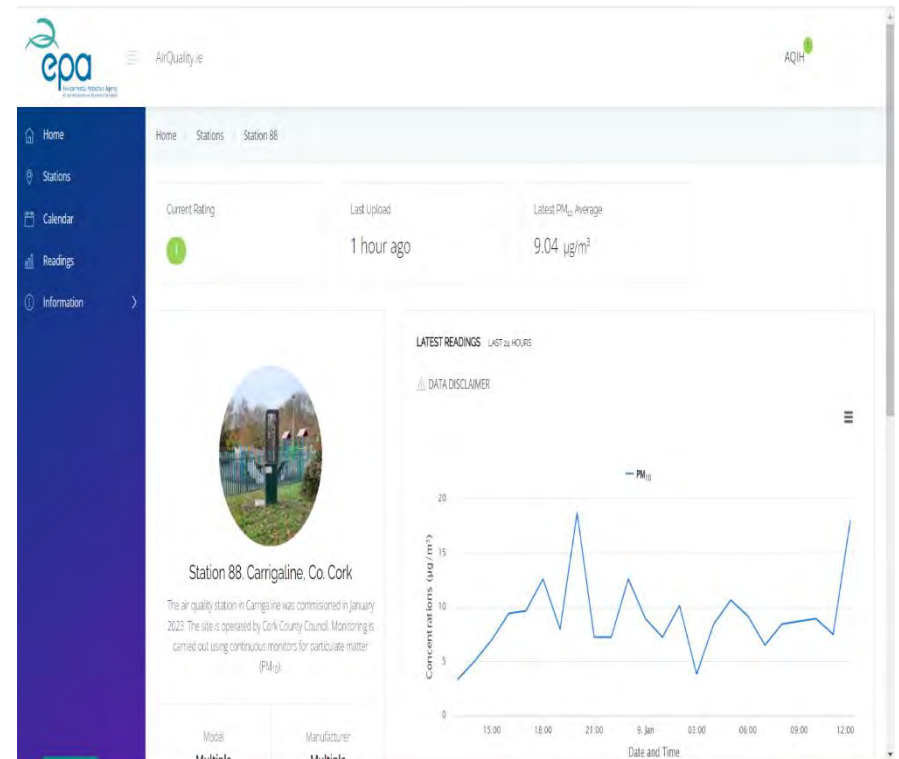

The monitor currently measures PM 10 micron but will in due course be upgraded to measure the finer and more harmful PM 2.5-micron particles.

LOCATION

Carrigaline, Co. Cork 51.8153°N, -8.3875°E

(01_2023_S)

1.6 Community Environmental Awareness Programmes

1.6.1 Climate literacy course for post primary schools

Cork County Council recently invited post primary schools in the Southern Division of Cork County to register interest in a Climate Literacy Course. The 10-week course will be delivered in schools during the second and third terms of the 2022/23 academic year by Education for Sustainability. Cork County Council will fund all costs, i.e., €1600 per school. While we are piloting it with schools in the Southern Division, we would hope to roll it out to schools in both Western and Northern Divisions thereafter.

The 10-week course combines online resources including lesson plans and an online student workbook as well as in person teacher training for one class grouping for 10 weeks. While the course is very suitable for Transition Year or CSPE it can also be integrated with other subjects. A facilitator will visit your school weekly to deliver the course and simultaneously train the teacher(s). Course topics include climate change, sustainable development, climate justice plastic, fast fashion, sustainable transport, biodiversity loss, food and soil and taking action. The online course materials will be made available to all teachers in the school and online training sessions will also be held for any teachers wishing to integrate climate literacy into other subjects.

The 8 schools registered for the Climate Literacy Course are as follows:

1. Midleton CBS Secondary School – East MD
2. St.Marys High School, Midleton – East MD
3. Edmund Rice College, Carrigaline - Carrigaline MD
4. Carrigaline Community School – Carrigaline MD
5. Scoil Mhuire Béal Átha'n Ghaorthaidh – Macroom MD
6. Kinsale Community School - Kinsale/Bandon MD
7. St Mary's Secondary School, Chalreville – Kanturk/Mallow MD
8. Bandon Grammar School – Kinsale/Bandon MD

1.6.2 Community Recycling Award for Relove Paint at the Irish Environmental Pakman Awards

We were delighted to accept the Community Recycling Award, on behalf of the partners of Relove Paint, at the Pakman Awards on 28th October last. A unique collaboration between Cork County Council and Cork City Council, unwanted water based paint is collected at both local authority civic amenity sites by three social enterprises, Cycle Sense Skibbereen, IRD Duhallow and a Northside Community Enter Cork city, who filter, remix and recolour the paint before selling it back into the community at a low cost. The project resulted in 5 tonnes of paint being diverted from incineration/landfill and made available to local enterprises. To date 2,200 litres of paint have been sold back into the community with the volume of sales increasing all the time. A great example of the circular economy in action.

More information at www.relovepaint.ie

(11_2022_W)

L to R: Colm O'Connor (IRD Duhallow), Michelle Green (Cork County Council), Jessica Baron (IRD Duhallow), Mary Walsh (Cork City Council), Noreen Hegarty (Northside Community Enterprises) Fr John O'Donovan (Northside Community Enterprises) and Seamus Clancy (Repak).

1.6.3 Fast Fashion Workshops for Post Primary Schools

In November, Post Primary Schools were invited to participate in Fast Fashion Workshops delivered by Circular Fashion Ireland and fully funded by Cork County Council's Environmental Awareness Office. To date 7 schools have participated in workshops, 2 schools are scheduled for January and one remaining space will be advertised to all schools across the county to close out the 10 committed workshops.

The workshops are available to all classes, 1st year through to 6th year and are 90 mins in duration to include Q&A. Some of the topics covered include:

- What is fast fashion?
- Environmental impacts of fashion & textiles industry
- Sustainable fashion
- Circular economy and fashion
- Reuse & Repair

List of schools that have registered:

1. Kinsale Community School
2. Patrician Academy
3. Boherbhue CS
4. Midleton College
5. Edmund Rice Carrigaline
6. Schull CS
7. Gaelcholáiste Charraig Uí Leighin
8. Carignafoy CC
9. Bantry Youth Reach Cork ETB

(01_2023_S)

1.7 National Broadband Plan (NBP)

1.7.1 Fibre Roll-out (BCPs)

NBI rely on their parent website at <https://nbi.ie/> to provide information on the National Broadband Contract. Website <https://nbi.ie/nbp-project-progress/> provides detail on the roll-out progress and the website advises the number of premises in the Intervention Area has grown by 17K since commencement of the project. NBI also advise the roll-out programme remains on target to be delivered within the originally planned 7-year programme. The national roll-out programme for 2022 envisages:

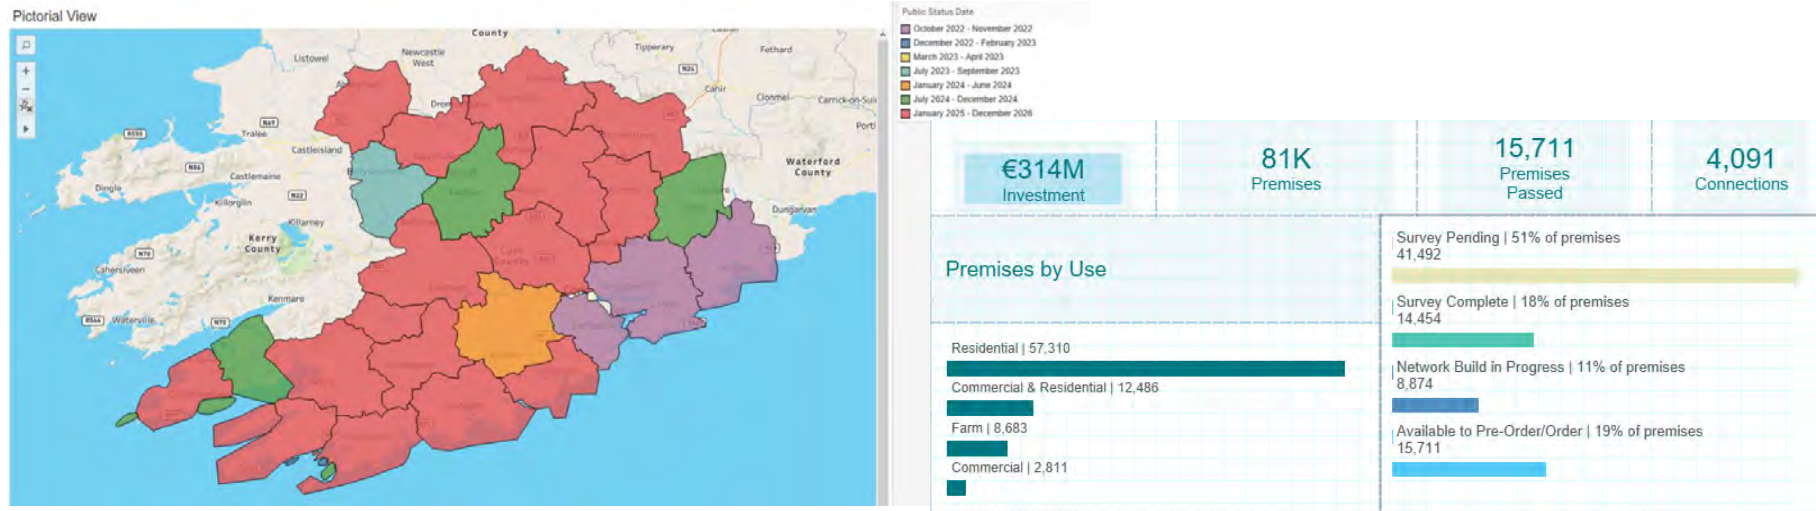

- Premises under construction to grow by 43%, to 221,000 homes (40% of the 7-year target)
- Premises available to order set to increase by 266% to 128,000 homes
- Premises passed to grow by 219% to 102,000 homes

The website provides progress report numbers at a national level.

Network build is substantially complete in Carrigaline, Midleton, Youghal DA's. Deployment is commencing in the Long Island & Hare Island DA's. Deployment in the Rathmore and Templemartin DA's to follow. Surveying works are complete at Kanturk, Clonakilty, Fermoy and Tallow DA's and on 3 of the islands. Approx. 81,000 premises across Cork County will ultimately benefit from access to high-speed broadband constructed under the National Broadband Contract and it is estimated 67,000 of these premises are in the Cork County areas.

An overview of planned NBI broadband roll-out activity across the county is captured from the <https://nbi.ie/where-are-we-working/> website and is presented below.

Environment/Climate Action/Emergency Services/Rural Broadband

Website <https://nbi.ie/where-are-we-working/> can be hovered over to identify status of the individual DA's. An overview of the present status and the roll-out per Deployment Area is presented in the table below:

Environment/Climate Action/Emergency Services/Rural Broadband

Oft Name	Public Status Date	Survey Pending	Survey Complete	Network Build in Progress	Available to Pre-Order/Order
		Physical surveys are required to examine the existing pole and duct network for inclusion in the design.	NBI's detailed design process covers infrastructure, power and footprint required, drawings, openair works, and Local Authority requirements.	After the designs have been approved, work can start on the ground. This includes everything from readying existing infrastructure to laying fibre.	Once the build is complete, an order can be placed with a broadband service provider who is registered to sell on the NBI™ network.

NBI continue to operate a dedicated e-mail service at reps@nbi.ie for Elected Representative queries and news items are published at <https://nbi.ie/news/updates/>. NBI advise of issuing news items direct to relevant Elected Representatives.

Receiving the grants of €1,000 each under the RISE Community Fund supported by NBI were the Castlelyons Community Centre, with plans to install a mobile booster to extend the benefits of high-speed connectivity in the area; Carrigaline GAA, to enable internet availability throughout the club grounds and use technology to enhance training methods; Carrigaline Mens Sheds, to install a smart TV into their newly built facility and give access to videoconferencing and online resources; and Courtbrack

Environment/Climate Action/Emergency Services/Rural Broadband

Community Centre, which will be bolstering its online capabilities to better serve everyone in the community as well as digitise some of its key functions including introducing online banking for the first time.

1.7.2 Broadband Connection Points

. A total of 25 BCP's are now completed across the county and are operational. Remote working is being accommodated at a number of BCP's. Usage of BCP's across the county approximates to 330 users per month.

The Council continues to support the Broadband Connection Points (BCPs) initiative and is co-funding the monthly broadband retail service costs at BCP's. Many of the BCP's availed of Town and Village funding support to purchase furniture and fittings to enhance remote working opportunities.

Grants under the €5 million Government Grant Connected Hubs Call 2022 scheme, totalling in excess of €110K, were received by Laharn, Bere Island and Castlelyons BCP's to add additional remote working infrastructure at the Broadband Connection Points (BCPs).

On 15th April, Minister Humphreys announced a €15M Community Centre Investment Fund to support community groups with the upgrade and development of their Community Centre facilities which may have become aged and dilapidated over time. Further info on the fund can be viewed at <https://www.gov.ie/en/service/fec91-community-centres-investment-fund/>. Funding will be available under 3 Categories with grants of between €10,000 and €300,000 available.

On 13th October Minister Humphreys announced the recipients of the Category 1 grants for project types up to a value of €25K under the €15M Community Centre Investment Fund to support community groups with the upgrade and development of their Community Centre facilities which may have become aged and dilapidated over time. These grants will allow communities to undertake upgrade works on a fully funded basis. There was extensive interest in these grants and a total of €12.5M is now committed to these projects nationwide. Across Cork City and County community groups will benefit to amounts of €1.35M for upgrade of their community centres. Community Centres across the county hosting BCP sites will benefit to amounts of €120K.

Aubane Community School	€16,000.00
Bere Island Old School Heritage Complex	€25,000.00
Castlelyons Community Centre	€22,628.25
Courtbrack Community Association	€16,033.86
Diarmuid O'Mathuna GAA club	€16,117.00
Dromina Community Council Ltd	€23,406.27

The list of BCP's is categorized by MD as set out below:

- Bandon-Kinsale MD
 - Clogagh Community Hall and Riverstick Community Centre
- Cobh MD
 - Whitechurch Community Centre
- Fermoy MD
 - Ballindangan Community Centre, T.O Park Community & Sports Centre, Castlelyons Community Centre and The Old Mill, Castletownroche
- Kanturk-Mallow MD
 - Glash School Community Centre, Laharn Heritage Centre and The Old Schoolhouse, Dromina
- Macroom MD
 - Aghabullogue Community Centre, Aubane Community Centre, Ballydaly Community Hall, Courtbrack Community Centre and Ionadh Áise, Renaniree
- East Cork MD
 - Inch Community Centre
- West Cork MD
 - Bere Island Heritage Centre, Castletownkenneigh Community Centre, Clonakilty ETB, Coláiste Phobal Cléire, Lisavaire Community Centre, Mealagh Valley Community Centre and Sherkin Island Community Hall, Caheragh Community Centre and Glengarriff Community Centre.

1.7.3 WiFi4EU Project

Under the WiFi4EU initiative, the European Commission wishes to promote free Wi-Fi connectivity for citizens and visitors in public spaces such as parks, squares, public building, libraries, health centres, and museums across Europe through the installation of state-of-the-art Wi-Fi equipment in the centres of community life.

County Council secured 4 vouchers under the WiFi4EU award procedures and each of these vouchers supports EU funded infrastructural investment. There is an additional commitment from the Irish Government to match fund the EU investment. Accordingly, the combined EU and Irish Government grant associated with the WiFi4EU scheme is up to a maximum of €120,000.

Cork County Council appointed Paradyn to undertake installation of access points across the county. Installation works are progressing, and access point installations are complete in Cobh, Middleton, Camden, Youghal, Dunmanway, Carrigaline and Kanturk. Draw down of funding associated with completed works has commenced and remaining installations are due to be complete in first quarter of 2023.

(01_2023_S)

1.8 Fire & Building Control

1.8.1 Long Service Awards

34 current and former Fire Services Personnel from Cork County Fire Service were honoured for their years' service at a ceremony in the Knightsbrook Hotel, Trim, Co Meath on the 17th November. The ceremony was organised by the National Directorate for Fire and Emergency Management and was the first long service awards ceremony held since the onset of the pandemic, it was attended by over 270 fire service personnel. The 34 Cork County Personnel being honoured have a combined service record of over 1,000 years and it was great to see them getting recognition for their long service.

1.8.2 Fire Safety Week 2022

This year National Fire Safety Week 2022 ran from 17th October – 23rd October 2022 and was welcomed by all 20 Fire Stations across the county as it was the first year since 2019 that we were able to be out in towns and villages with fire safety information stands promoting the fire safety message. This year the main focus of the week was fire safety in the home, encouraging all homes to have working smoke alarms and to have an escape plan if the alarm goes off.

1.8.3 Annual Primary Schools Drawing and Colouring Competition

During the month of November, once again we ran our Primary Schools Colouring and Drawing Competition. It once again proved a very popular competition, with a first prize for each class of a €50 Smyths Toys voucher and fire safety activity packs for the winners' class and two runners up prizes for each class of €25 Smyths Toys Vouchers. Prize winners have been picked and local fire brigades will be delivering the prizes in the run up to Christmas. See below a selection of prizewinning entries receive

1.8.4 Community Smoke Alarm Scheme for Elderly Vulnerable /Residents

Cork County Fire Department, in conjunction with the National Directorate for Fire and Emergency Management (NDFEM), provides community groups with 10-year battery operated smoke alarms for distribution and installation within elderly and vulnerable resident's dwellings.

Interested community groups can contact the Fire Service, following assessment of applications a member of the fire service will then be in contact with the group to arrange delivery of smoke alarms.

Further information can be requested from Cork County Fire Service at fireinfo@corkcoco.ie

1.8.5 Building Regulations (Part M Amendment) Regulations 2022

Revised Building Regulations (Part M Amendment) 2022, (SI No 608 of 2022) were signed on 29 November by the Minister of State with responsibility for Local Government. These revised Regulations make provision for a changing places toilet in certain buildings. The corresponding Technical Guidance Document M- Access and Use has also been updated, this document outlines how compliance with the updated requirements can be achieved.

Changing places toilets offer larger supported sanitary facilities that address the needs of people for whom current accessible sanitary facilities are inadequate.

The key objectives of the amendments are as follows:

- To increase the provision of changing places toilets in certain new buildings, subject to their size and use,
- To ensure adequate standards of accessibility and usability in changing places toilets,
- To improve the accessibility and usability of existing building stock by making provision for a changing places toilet, where there is a significant extension or material change of use, subject to the building size and use,
- To support and complement the aims of the Equality Act 2004, the Disability Act 2005, and the UN Convention on the Rights of Persons with Disabilities.
- To further the achievement of UN Sustainable Development Goals by reducing inequality and promoting an inclusive society.
- To support and underpin the philosophy of Universal Design. The new Regulation will enhance the needs of an important segment of our society by the regulatory provision of this sanitary facility in certain buildings and spaces and will greatly improve community participation and social inclusion.

A copy of the Regulations is available at the following website:

<https://www.irishstatutebook.ie/eli/2022/si/608/made/en/print#:~:text=These%20Regulations%20amend%20Part%20M,a%20'changing%20places%20toilet>

The Technical Guidance Document can be accessed at the following link:

<https://www.gov.ie/en/publication/78e67-technical-guidance-document-m-access-and-use/#current-edition>

1.8.6 Emergency Management

The Annual Major Emergency Management Conference took place in the Knightsbrook Hotel in Trim on 20th October 2022. A broad range of speakers from organisations such as the World Health Organisation, German Ministry of Energy, Agriculture, the Environment and Rural Areas, HSE & Irish Air Corps presented on wide ranging topics on what was the first in-person conference since 2019. David Hickey of Cork County Fire Service gave a fascinating insight on his recent EU Civil Protection Mission to Slovakia as part of the Ukrainian Crisis response.

A test of Pfizer Ringaskiddy's External Emergency Plan took place at the Rochestown Park Hotel on 3rd November 2022, in line with the requirements of the 2015 COMAH Regulations. The exercise tested a major accident scenario on-site by conducting a tabletop walk through of the External Emergency Plan. The event was coordinated by the Inter-Agency Emergency Management Office and was attended by 28 people from the Principal Response Agencies, including Cork County Fire Service, and Pfizer Ringaskiddy. Cork County Council were further represented by staff from the Environment & Corporate Affairs Directorates.

A test of the Kinsale Harbour Oil / HNS Spill Contingency Plan took place in the Council Chambers and Crisis Management Team Room in County Hall on 28th November 2022. The exercise simulated a Tier 2 type oil spill incident, where a cargo ship ran aground in Kinsale harbour with significant quantities of heavy fuel oil & other products onboard. The exercise was led by the County Pollution Officer on behalf of the County Engineer and was well attended by internal and external stakeholders. The Oil Spill Management Team was supported by an Information Management Team made up of members of the Fire Service on the day.

Environment/Climate Action/Emergency Services/Rural Broadband

In response to weather alerts issued by Met Éireann, Cork County Council's Severe Weather Assessment Team (SWAT), chaired by the Director of Services Roads and Transportation, convened on five occasions via MS Teams in Q4 of 2022 for the weather events listed below. The National Emergency Coordination Group (NECG) convened on a daily basis between 11th Dec & 14th Dec 2022 to monitor and advise on the national Orange weather alerts issued by Met Éireann.

Date	Response	Met Éireann Alert	Detail
18 Oct 2022	SWAT	Orange	Intense rainfall, potential flooding
31 Oct 2022	SWAT	Orange	Intense rainfall, potential flooding
11 Dec 2022	NECG	Orange	Low temperatures and ice
11 Dec 2022	SWAT	Orange	Low temperatures and ice
12 Dec 2022	NECG	Orange	Low temperatures and ice
12 Dec 2022	SWAT	Orange	Low temperatures and ice
13 Dec 2022	NECG	Orange	Low temperatures and ice
14 Dec 2022	NECG	Orange	Low temperatures and ice
14 Dec 2022	SWAT	Orange	Low temperatures and ice

The Oil Spill Management team (OSMT), chaired by the County Pollution Officer on behalf of the County Engineer, convened on five occasions via MS Teams between 21st October and 1st November 2022, in response to the sinking of a fishing vessel in Crookhaven Harbour on 21st October 2022. The OSMT managed Cork County Council's shoreline response until the salvage operation was complete and the incident closed.

(01_2023_S)

2. Part 2 Work Programme Reports for Q3 2022

(DATA IS UP TO THE END OF Q2 UNLESS OTHERWISE STATED)

2.1 Fire & Building Control

2.1.2 Fire Operations for Q4.

Fire Operations	
Total number of turnouts to fires	251
Average of turnout times	291.40secs
Average of response times	883.38secs
% of calls with a response time of less than 10 minutes	36.92%
% of calls with a response time of between 10 and 20 minutes	43.59%
% of calls with a response time greater than 20 minutes	19.49%
Total number of turnouts to non-fire emergencies	325
Average of turnout times	286.86secs
Average of response times	888.12secs
% of calls with a response time of less than 10 minutes	28.67%
% of calls with a response time of less than 20 minutes	51.05%
% of calls with a response time greater than 20 minutes	20.28%

2.1.3 Fire Prevention

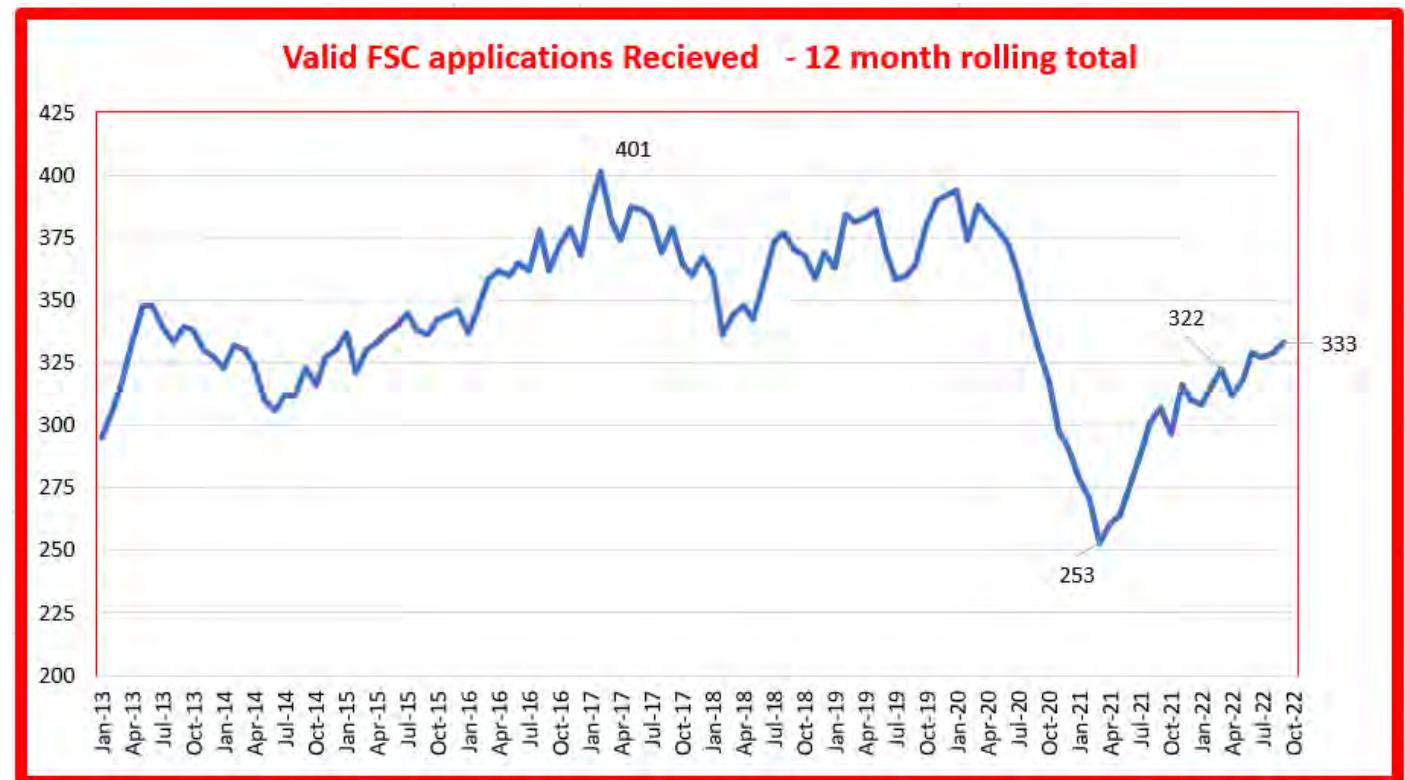

Fire Prevention

Fire Safety Certificates (FSC)

Q4 update not available yet – supplementary update will be circulated in due course

The following tables show the number of FSC applications received and decided i.e granted month by month, together with a graph showing trend of 12 month rolling total of FSC applications received.

Month	No. FSC recd	No. FSC decided
January 2022	11	18
February 2022	23	17
March 2022	34	27
April 2022	22	34
May 2022	45	29
June 2022	45	21
July 2022	32	34
August 2022	28	30
September 2022	27	34
Total to end Q3	267	244

2.2 Water

2.2.1 Public Drinking Water Monitoring Program 2022:

Covid-19 update:

The planned public water supply sampling programme is progressing, and on target.

No of Public drinking water supplies	No of samples scheduled for 2022	No of samples taken by end-Q4 2022	No of parameters scheduled for analysis in 2022	No of parameters analysed by end-Q4 2022	% of parameters Compliant with Drinking Water Standards by end-Q4 2022
151*	889*	1,066	15,540	20,181	99.5%
<i>Q4/2021</i>	<i>979</i>	<i>1,164</i>	<i>17,113</i>	<i>21,158</i>	<i>99.4%</i>

*Subject to revision, based on updated monitoring requirements specified by Irish Water (including network closures/consolidation).

Under the terms of our Service Level Agreement (SLA) with Irish Water, the Environment Directorate delivers an extensive sampling & testing programme in relation to public drinking water supplies. Summary data on progress against overall targets is given below. It is not currently possible to break this data down by Municipal District.

Detailed information on individual water supplies can be found at <https://www.water.ie/water-supply/water-quality/>.

2.2.2 Private Drinking Water Compliance Monitoring

Covid-19 update:

The HSE had previously advised that sampling at nursing homes could recommence in Q2/Q3, subject to the incidence rate of Covid-19 at the time, as well as the agreement by management at individual nursing homes. Given the continued risk of Covid-19, as well resource constraints within the laboratory, sampling at nursing homes remained suspended in Q3, but will be reviewed for Q4. In Q3 2022 continued priority was given to schools and creches and to re-testing supplies which had issues, with many coming back into compliance. Q3 also saw reinstatement of sampling at private supply hotels/ B&Bs and Sports clubs.

Sampling of Group Water Schemes has not been affected by Covid-19 restrictions with outdoor monitoring points accessible at all supplies.

Private WS supply type	No of drinking water Private supplies	No of samples scheduled for 2022	No of samples taken by end-Q3 2022	No of parameters scheduled for analysis in 2022	No of parameters analysed by end-Q4 2022	% of parameters Compliant with Drinking Water Standards up to end-Q4 2022
Private Group WS	25	50	34	800	845	97.2 %
<i>Q3/2021</i>	<i>25</i>	<i>50</i>	<i>45</i>	<i>950</i>	<i>1,238</i>	<i>95.6 %</i>
Small private supplies	101*	202	164	3,686	3,350	96.9%
<i>Q3/2021</i>	<i>159*</i>	<i>200</i>	<i>124</i>	<i>3,600</i>	<i>3,638</i>	<i>87.3%</i>

* Number stated is number of supplies prioritised to be monitored based on a risk assessment (e.g. schools, crèches, nursing homes, etc.). This number may be reviewed during the year, depending on Covid-19 incident rate. Approximately 400 Small Private Supplies in County Cork.

2.2.3 Bathing Water Compliance Programme 2021

Note: Bathing Season monitoring extends from mid-May to mid-September. In addition to bathing water sampling and testing outlined below, the Water Quality Laboratory also undertakes environmental education activities as required by the Blue Flag rules. This year, on-the-beach activities were scheduled for May and June, laboratory staff assisted by a number of NGOs plans to engage with schools. Beach activities were held on a number of beaches with students learning about beach ecology and the importance of keeping our beaches clean along with water safety instruction from Cork Co. Council’s Water Safety Development Officer.

Below table outlines the completed bathing water monitoring programme for 2022, with the bathing water monitoring results for 2021 re-stated in section 2.1.3.1. These tables are the similar to those submitted in the Q3 Divisional Committee Report. Otherwise updates for Q4 are: Classification for Identified Bathing Waters were validated by the EPA, and the Blue Flag applications were submitted to An Taisce in November 2022.

Total No of beaches in monitoring programme 2022	No of samples scheduled for 2022 Bathing water Season (May – Sept)	No of samples taken 2022	No. of compliant samples <i>E.Coli <500 AND I. Enterococci <100</i>	No of non-compliant samples 2022 <i>E. coli > 500 OR I. Enterococci >100</i>

2.2.6 Agricultural Inspection Program

No of farm inspections scheduled for 2022	Municipal District	No of farm inspections undertaken 1/1/2021 to 31/12/2021	No of farm inspections undertaken 1/1/2022 to 31/12/2022	No of warning letters sent	% of farms with non compliances detected	No. of Cross reports to DAFM	% of farms with Cross reports to DAFM
794	Carrigaline	36	25	9	36%	1	4%
	Bandon/ Kinsale	82	75	19	25%	3	4%
	Macroom	70	67	23	34%	2	3%
	Cobh	65	49	13	27%	2	4%
	East Cork	82	76	17	22%	4	5%
	Fermoy	134	145	35	24%	1	0.7%
	Mallow/Kanturk	143	216	47	22%	6	2.8%
	West Cork	103	130	35	27%	1	0.8%
	Total		715	783	198	25%	20

2.2.7 Septic Tanks - more than half are failing inspection.

Municipal District	No. of Septic Tank inspections scheduled for period 2022	No. of Septic Tank inspections undertaken for period 1/1/22 -31/12/22	No of non-compliant systems identified	% non- compliances identified	No. of Advisory Notices issued	No. of Advisory Notices Complied with
Carrigaline	9	9	6	67%	6	6
Bandon/Kinsale	15	16	5	31%	5	1
Macroom	19	22	12	55%	12	7
Cobh	9	8	6	75%	6	4
East Cork	9	7	5	71%	5	4
Fermoy	15	14	4	29%	4	3
Mallow/ Kanturk	15	15	10	67%	10	3
West Cork	22	22	11	50%	11	5
Total	113	113	59	52%	59	33

Notes;

- Under the 2022-2026 Domestic Waste Water Treatment Systems National Inspection Plan, (NIP), the minimum number of inspections has increased from 60 in 2021 to 113 in 2022 & 136/annum from 2023 -2026
- There is small variation between scheduled & actual inspections in some divisions in order to achieve required number of inspections in each risk zone, & to group inspections for more efficient work.

Environment/Climate Action/Emergency Services/Rural Broadband

The 2022-2026 National Inspection Plan identifies 3 Risk Zones.

Risk Zone 1; These are areas where DWWTS pose a higher relative risk to surface waters. NIP requires 18 inspections in Zone 1 in 2022.

Risk Zone 2; These are areas where DWWTS pose a higher relative risk to private wells. NIP requires 77 inspections in Zone 2 in 2022.

Risk Zone 3; Zone 3 covers the rest of the country. NIP requires 18 inspections in Zone 3 in 2022. Sites for inspection have been selected in compliance with the requirements of the NIP.

2.2.8 Update on Septic Tank Inspection Program 2013 – 2021

	No. of Septic Tank inspections scheduled for period 1/7/2013 to 31/12/2021	No. of Septic Tank inspections undertaken to 31/12/2021	No of non-compliant systems identified	% non-compliances identified	No. of Advisory Notices issued	No. of Advisory Notices Complied with by 31/12/2022
Total	684	700	389	56%	389	369

2.2.9 Update on Tracking of Compliance with Advisory Notices 2013 – 2021

National Inspection Plan Domestic Wastewater Treatment System Inspections			Number of Advisory Notices Complied with in				No of Advisory Notices Not Complied with by 31/12/2022	
Dates of Inspections	No of inspections	>12 months	< 3 months	4-6 months	7-12 months	>12 months	>6 months	>12 months
1/7/2013 – 31/12/2014	146	79	25	19	17	17	0	1
1/1/2015 - 31/12/2015	99	58	9	19	18	11	0	1
1/1/2016 – 31/12/2016	102	68	25	16	8	18	0	1
1/1/2017 – 31/12/2017	112	63	10	17	2	25	0	9
1/1/2018 – 31/12/2018	60	21	6	3	2	10	0	0
1/1/2019 – 31/12/2019	60	31	8	12	3	8	0	0
1/1/2020 – 31/12/2020	59	32	7	6	3	12	0	4
1/1/2021 – 31/12/2021	62	37	8	15	7	3	0	4

Notes;

- We continue to engage with all householders who have not yet complied fully with their Advisory Notices.
- There are 9 notices not complied with for 2017. 8 of these are in one location & are liaising with Irish Water re provision of public sewer.

Environment/Climate Action/Emergency Services/Rural Broadband

2.2.10 DWWTS Grant Payments by Cork County Council (to 30/09/2022)

Grant Scheme	2014	2015	2016	2017	2018	2019	2020	2021	2022
National Inspection Plan	2 Grants €3,151	8 Grants €17,185	9 Grants €18,282	6 Grants €15,031	3 Grants €6,867	4 Grants €7,177		1 Grant €5,000	8 Grants €22,560
High Status Areas	N/A	N/A	N/A	N/A	N/A		N/A	1 Incomplete Application	1 Grant paid €5,000 1 applications submitted, & approved, works in progress
Priority Areas for Action	N/A	N/A	N/A	N/A	N/A		N/A	2 referrals to LAWPro for Approval.	1 Grant Paid €5,000

Notes;

- Total of 43 DWWTS grants, worth €105,253, have been paid out since 2014, by Cork County Council.
- All grant payments have been recouped from Department of Housing, Local Government & Heritage.
- The grant schemes for High Status Areas, & Priority Areas for Action, were not available until 2020.

Key Message

Too much sludge in the tank is one of the reasons for non-compliance in over 50% of cases. Householders are encouraged to desludge their septic tanks using an authorized desludging contractor every 2-3 years. A list of local authorized desludging contractors is available from the Environment Directorate at Inniscarra.

2.2.11 Municipal Wastewater Sampling Programme

Note: Full completion of public wastewater regulatory sampling and testing programme.

Figure 1: IW Work Programme- Inspections

Figure 2: IW Work Programme – Samples

Under the terms of our Service Level Agreement (SLA) with Irish Water, the Environment Directorate delivers an extensive sampling & testing programme in relation to public waste water treatment systems. Summary data on progress against overall targets is given above. More information on individual municipal treatment plants can be found via the Irish Water website; <https://www.water.ie/wastewater/compliance/>. Compliance information for individual plants is available via the EPA’s website at <https://gis.epa.ie/EPAMaps/SewageTreatment>.

% Inspection plan completed		101%				

Notes:

Section 4 (private discharges) programme has been significantly impacted by Covid. Many of the Licences scheduled for inspection visits relate to premises closed under national restrictions. Inspections have therefore focused more on operational controls and management rather than compliance samples. Our inspection plan is kept under continual review to reflect NPHEt guidance. Plan reviewed in Oct. 2022. High risk facilities (nursing homes, hospitals etc). removed from sampling plan. Some facilities scheduled for inspection remained closed.

2.3 Air & Noise

2.3.1 Numbers of licenses under Air Pollutions Acts and related regulations

Licence Type	Municipal District	Q4 2021	Q1 2022	Q2 2022	Q3 2022	Q4 2022	+/- on Q3 2022

Total	2	2	0	0	0	0	100%

* Note: Coal Inspections occurs primarily in Q1 and Q4 each year i.e., during the heating season.

* New regulations governing solid fuels came into force on October 31st, 2022 and apply nationwide. Therefore, the distinction between Low-Smoke Zones and non-ban areas no longer applies. All inspections that took place in Q4 2022 are recorded in Table 2.2.1. Under the new regulations Cork County Council no longer has the power to issue fines.

¹ The term “Advisory Letters” relates to communications issued to identified fuel suppliers and retailers at start of heating season as part of our awareness campaign, or to householders in areas identified as having problems.

2.4 Waste

2.4.1 Inspections 1st October – 31st December 2022

	Municipal District								Q4Totals

2.6 Energy Management

2.6.1 SEAI

Public bodies are required under Statutory Instrument 426 of the European Union Energy Efficiency Regulations (2014) as amended to report their energy performance annually. The system by which public bodies report their energy consumption is through the Monitoring and Reporting (M&R) system, managed by the Sustainable Energy Authority of Ireland (SEAI).

Under the National Energy Efficiency Action Plan (NEEAP), Cork County Council had an energy efficiency improvement target of 51% on 2009 energy efficiency figures by 2030.

2.6.2 Energy Efficiency Status 2030 (preliminary)

At the end of 2021, Cork County Council's energy efficiency was 25.3% better than baseline. The NEEAP target glide path presented in the current SEAI monitoring and reporting scorecard is shown in Figure 1.

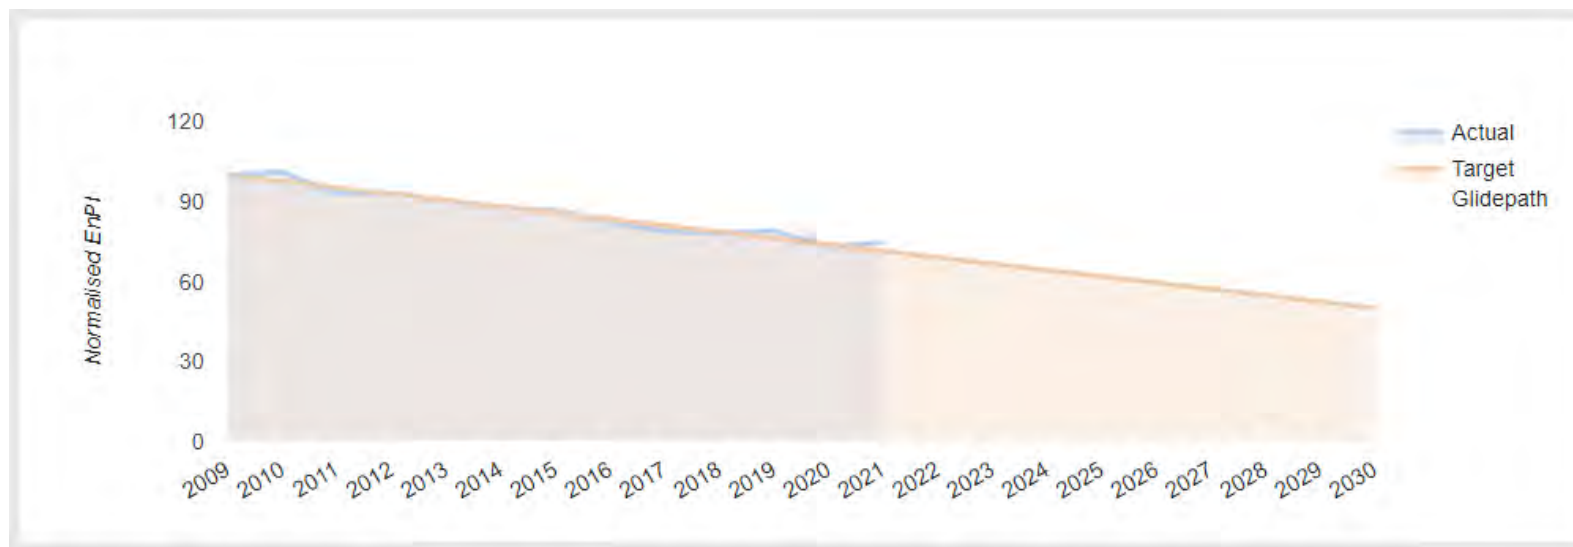

Figure 1 Cork County Council's energy efficiency performance glide path to 2030 from SEAI M&R

The figures presented below were published by the SEAI in their Annual Report 2020 on Public Sector Energy Efficiency Performance. The major findings are as follows:

Environment/Climate Action/Emergency Services/Rural Broadband

- 2.8% worse than 2020
- 25.3% better than baseline (2009)
- 49.4% improvement required by 2030

Cork County Council's 2021 scorecard is expected to be published by SEAI in October 2022.

2.6.3 Energy Management Action Plans 2022

Individual Directorates and SEUs were invited to submit Energy Management Action Plans (EMAP) for 2022. The actions for 2022 and progress to date are shown in Table 1.

Directorate	Section	Action	Comment
	Public Lighting	Public Lighting Energy Efficiency Project (RMO Project)	<i>Contracts signed 28/1/2022.</i>
Environment	Fire Stations	Millstreet/ Cobh/ Charleville – drying rooms ready	<i>Dehumidifiers on order</i>
		Mallow – insulate ceiling and walls of offices	<i>Awaiting prices</i>
	Inniscarra Env building	Replace geothermal with air-to-water heat pump/ Replace kerosene oil boilers/ LED Lighting upgrade x 4 nr . Buildings on Campus	<i>Consultants appointed- review of site has been undertaken & proposals being considered by CCC</i>
	Inniscarra Wastewater Laboratory	Replace single glazed PVC doors	<i>Action completed- doors installed</i>
	E&CC	Indoor Lighting replacement	<i>Contractor appointed; works are progressing</i>
		Building EE Audit (15 no. buildings)	<i>Desktop studies and site surveys completed, reports underway</i>
Energy Management Software (eLighthouse – Phase 3)		<i>Phase 3 Contract awarded</i>	
Roads & Transportation	Fleet Mgmt Unit	LCV EV Replacement	<i>Assessment under way to determine if all smaller vehicles can be replaced by electric vehicles (report by Oct 2022)</i>
Municipal Districts	Library Service	Fermoy – review of heating system	<i>works start date to be confirmed with contractor.</i>
		Skibbereen – windows & Retrofit of LED lights in upper floor	<i>Replacement of the existing single glaze windows</i>

Environment/Climate Action/Emergency Services/Rural Broadband

Directorate	Section	Action	Comment
		Midleton windows & roof repairs	<i>Scope of works under investigation by Architects Dept. Liaison with architect's department suggested that input from Environment Department might be sought on the feasibility of different heating systems and their value for money.</i>
		Clonakilty - Change oil fired underfloor heating to electric heating	<i>prices being sought</i>
		Bantry - Change electric underfloor heating to electric wall radiator heating & Windows	<i>Under review</i>
		Passage west – New Entrance Doors	<i>Under review</i>
		Carrigaline- Roof- under review	Contractor has visited and assessed site.
	Architects	Kinsale - Old Mill Library	<i>Works ongoing</i>
		Macroom Fire Station	<i>Works ongoing</i>
	Mallow Leisure Centre	Detail Design regarding the Upgrade of Mallow Pool including energy efficiency works such as new windows, roofing, and improved AHU's	<i>Mallow Swimming Pool has been approved by SSIP for funding for Design - A letter of Intent has been issued to Consultant. It will be 6 months before any design is complete. Funding has not been approved to go to construction – this will require further approval by the SSIP Group at a future date.</i>
	Fermoy Leisure Centre	At Tender stage for a contractor to over roof Fermoy Swimming Pool c/w the installation of Solar PV Panels	<i>Tender stage Underway</i>
	Dunmanway Leisure Centre	Main Pool Uplighters LED Replacement (Tender stage)	<i>New Tender issued as available lights not chlorine resistant</i>
		Carry out Energy Efficiency Measures as per Consultant's report	<i>Measures being carried out</i>

Table 1 2022 EMAP actions

Note the above actions are dependent on funding approval within the respective Directorate.

2.6.4 Important dates

Date	Description
26th & 27th March 2023	ISO 50001 surveillance audit

Table 2 2022 key dates

2.6.5 ISO 50001

Cork County Councils Energy Management System (EnMS) is accredited to the ISO 50001 standard. Cork County Council is therefore compliant with SI 426, which is the statutory instrument that requires all large organisations to either have completed an organisational energy audit or have implemented an approved EnMS. An ISO 50001 recertification audit was successfully completed on the 31st of March 2022.

2.6.6 Significant Energy Users (SEU)

ISO 50001 is an organisational energy management system. A requirement of the ISO 50001 accreditation is that Cork County Council continuously monitors and reports on its SEU's. Cork County Council has four nr. Significant Energy Users (SEU). Cumulatively they account for more than 80% of all energy consumption. The 2022 percentage breakdown is provided below:

- Public Lighting (33%)
- Fleet (37%)
- County Hall campus (5%)
- Leisure Centres (6%)
- Fermoy
- Mallow
- Dunmanway

2.6.7 Energy Efficiency Status

The Energy & Climate Change Section monitor the energy consumption of each SEU monthly using Energy Performance Indicators (EnPI). The EnPI for each Significant Energy User is described as follows:

- **County Hall has two EnPIs**

Environment/Climate Action/Emergency Services/Rural Broadband

- A formula called CUSUM predicts what energy should have been used based on past performance and is adjusted for weather conditions.
- kWh/m²/year
- **Fleet**
 - Is based on the average monthly litres/100km over the past 12 months.
- **The Swimming Pools**
 - A formula called CUSUM predicts what energy should have been used based on past performance and is adjusted for weather conditions.
 - kWh/m²/year
- **Public lighting** is calculated as the average wattage per lamp in the County. This energy performance indicator (EnPI) is reviewed annually.

The E&CC Section are currently reviewing the appropriateness of these EnPIs as part of CCC ISO 50001 compliance. New or additional EnPIs may be agreed with the relevant SEUs as part of this review process where required. Monthly EnPIs for 2021/ 2022 are presented in Figure 2 hereunder:

SEU Energy Performance Indicators (EnPI)											
		County Hall		Mallow Pool		Fermoy Pool		Dunmanway Pool		Fleet	Public Lighting
Heating Degree Days		Monthly Actual Gas v Predicted Gas use (above/below baseline of 0%)	Total Energy kWh/m2/year (rolling 12 monthly EnPI)	Monthly Actual Energy Use v Predicted Energy Use (above/below baseline of 0%)	Total Energy kWh/m2/year (rolling 12 monthly EnPI)	Monthly Actual Energy Use v Predicted Energy Use (above/below baseline of 0%)	Total Energy kWh/m2/year (rolling 12 monthly EnPI)	Monthly Actual Gas v Predicted Gas use (above/below baseline of 0%)	Total Energy kWh/m2/year (rolling 12 monthly EnPI)	Litres/ 100km/ year (rolling 12 monthly EnPI)	Watts/ lamp
										16.84	101.50
										17.52	105.56
										18.19	109.62
Jan-22	271	-6%	112	-14%	653	97%	848	-16%	620	16.68	102.94

2.7 Green Schools Programme

54 schools in Cork County were awarded with Green Flags in a virtual awards ceremony on 25th May 2022. In total, 641 schools were awarded flags across the country. A special mention this year goes to Muinefliuch National School who was selected as the winner of the Overall Global Citizenship Litter & Waste award.

School Name	School Type	Current Flag	Theme
Knocknagree NS	Primary School	First Flag	Litter and Waste
Ahiohill National School	Primary School	First Flag	Litter and Waste
Coláiste Fionnchua	Secondary School	First Flag	Litter and Waste
Scoil Bhríde	Primary School	5th Renewal	Litter and Waste
Bandon Grammar School	Secondary School	2nd Renewal	Water
Conna N.S	Primary School	2nd Renewal	Water
