

How do I print from my Google Drive?

1. Download the PrinterOn App.

2. Find the item on your Google Drive that you wish to print.
3. Click on the 3 dots beside the item on the screen.
4. Scroll down the list and click on 'Open With' option.
5. A screen will pop-up giving you the option of opening it with PrinterOn, select this option.
6. Please note, preview may not be available for the document on the screen.
